COURT CARE

Squash court maintenance & floor care

DAVID LLOYD CLUB, CHEADLE

David Lloyd is the UK's premier health & fitness brand, with 79 clubs. CourtCare were chosen to renovate two glass-back courts at the club following water damage to the walls and floors. Working to a very tight schedule to minimise downtime the side walls were repaired and re-skimmed with Armourcoat plaster and the Junckers floors were taken up, and salvaged, the undercarriage replaced and the floors re-laid, sanded and re-marked - all inside a two-week period. A completely new squash corridor floor was laid using Reflex Multisport beech.

COURTCARE

Squash court installation specialists

DAVID LLOYD CLUB, LEEDS

David Lloyd is the UK's premier health & fitness brand, with 79 clubs. As part of a major club upgrade David Lloyd Leisure has converted the existing traditional squash courts into a DL Kids activity centre. Working with our associate company **CourtTech** we were asked to construct 2 brand new courts in the Tennis Hall - using CourtTech's new WSF approved panel construction system. The existing Ellis Pearson glasswalls were re-used and brand new **Reflex** Multisport squash floors were installed on a **Reflex** cradle & batten system. Together with nets, tins and court markings the courts were erected and completed, ready for play in just two weeks!

COURTCARE

ALDERLEY EDGE CRICKET CLUB

Alderley Edge Cricket Club is one of Cheshire's premier private sports clubs with a wide variety of facilities - cricket, tennis, hockey and squash. CourtCare have recently installed the UK's *first CourtTech* squash renovation wall in the club's exhibition court. **CourtTech** is a new World Squash Federation approved high-density panel system. The **CourtTech** renovation wall is just 40mm thick, reducing court dimensions by a small amount and the system takes only a few days to install, keeping precious downtime to a minimum.

Technical Data Sheets

COURTCARE
THE NEXT GENERATION OF COURT CONSTRUCTION

Element: 1.1.3 CT Panel front wall

construction drawing:

description:

A 21 mm thick RS special high density board is fixed on an existing wall of the building. The CourtTech Panel Wall has a total construction thickness of 40 mm. The surface of the finished wall is coated 3 times and is flat and free of vertical joints. The CourtTech Panel Walls are filled with 1.0 ton of sand.
